

Adyn Andrew Howerton's File

-
- Main reasons that we are investigating Adyn Andrew Howerton: Rude, Hypocrite, Clown, Immature, Selfish, Liar, and more to come as we keep investigating.
 - Upon further analysis Adyn is a special kind of stupid as the entire point I was trying to convey to him flew right over his head.
 - Studying Adyn Andrew Howerton for a few days I have come to the conclusion that he has in fact not changed and seems to be attempting to manipulate people into thinking he has.
 - Adyn was seen at the park while I was undercover investigating the specimen. He did some pretty annoying and questionable things such as follow us around, say cringe jokes, harass us and think we were his best friends.
 - Speaking with Coy Wire the reporter for the Adyn News Network we have found out about a situation some of the locals reported. The specimen was reported to be seen following everyone. Witnesses say they heard 2 citizens known as Gage and Justice saying "he always follows us around" and "he is a human magnet".
 - Adyn was seen desperately trying to befriend Justice and trying to get at the same lunch table as Gage. Both have been seen telling the specimen to stop following them and even though the specimen said he would leave them alone if they told him to, he has not. This situation adds more onto The specimens record.
 - Upon opening Discord I immediately saw an invitation to some crusty server that is owned by one of the specimen's accomplices.
 - Me as well as a few others on the scene told the specimen that nobody wanted to join the server.
 - He proceeded to get angry and give a garbage argument to why he sent it to everyone. He said "how was I supposed to know they didn't wanna join? Was I supposed to read their minds? 🤪"
 - Studying the way the citizens on the scene spoke it seemed that they were very very annoyed.
 - Digging deeper I have found photographs of the specimen from when he went on a field trip to an unknown location.

- The photograph:
